		전동식 의료용 핸드피스 (Drill & Saw)	set	8

A. Features:

1. A battery-powered medical drill and saw handpiece that uses rechargeable batteries.
2. A dual-trigger handpiece that enables High Speed Drilling and High Torque Reaming without changing attachments.
3. Dual Speed Saw™ Two Speed Control provides a choice of two cutting speeds.
4. The Precision Saw uses small, independently moving saw blades for small-joint procedures and bone removal. Its design helps minimize soft-tissue and bone damage, reduces vibration compared with conventional oscillating saws, and produces less noise because only the blade tip moves.
